

28 APR 58

(CHACOM)

AD LIB

Page 2. After end of Paragraph 3 "...Northern Vietnam taken." Ad lib:

"The Communist mailed military fist is as deadly and as ruthless as was that of Hitler's Nazi forces. The Soviet adds colossal deceit to his massive military might -- force and guile."

Page 4. At the end of Paragraph 2. Ad lib:

"You may have noticed that the Soviets have announced in the press in the last few days that they have reduced the number of hours in the work week. Obviously this will be for certain fields only and may be a period of relaxation until the state again directs a longer work week. In Russia, you all know, the individual has no choice; man is a creature of the State."

Page 6. After Paragraph 2 "...over 75% of the steel tonnage of the U.S." Ad lib:

"This is a most sobering statistic; one that should shake you gentlemen out of any complacency you may have: I doubt you are complacent."

AD LIB (Continued)

Page 6. After Paragraph 3 "...as their own Sputniks." Ad lib:

"The President and the Congress are active to improve our economic situation but you gentlemen are the economic soldiers to make the good fight."

Page 18. At close of speech, as final clincher. Ad lib:

"Khrushchev's challenge is not only to the United States and the Free World; it is particularly directed to you business and industrial leaders. What are you going to do to defeat this Communist economic threat? I have pictured the Soviet situation to you -- it's a most serious challenge -- I know that American ingenuity, skill, knowledge, and know-how will blunt and then defeat this threat to our free way of life. I am proud to have had this opportunity to speak to you.

"Thank you very much."
